

INSTALLER QUICK START GUIDE:

Thank you for choosing the Onelink Safe & Sound alarm. Use instructions below if you are installing this alarm as a service to a homeowner or resident.

- 1 Basic alarm installation and interconnect (for multiple alarms) does not require WiFi connection or App download.
- 2 Follow alarm mounting and install instruction on pages 7-19 of Onelink Safe & Sound User's Manual (included in black sleeve).
- 3 Press and hold "TEST/SILENCE" button on side of alarm (below Onelink logo) for 3 seconds to initiate Smoke and Carbon Monoxide functionality test.
- 4 Repeat step 3 for each alarm installed and to ensure individual alarm function, as well as interconnect feature.
- 5 Return manual to Onelink Safe & Sound box, flip this card over to "Homeowner/Resident Quick Start Guide" and leave all materials on kitchen counter or visible space at work site.

For Installer Technical Support, please call 1-833-313-3091.
