

FIRST ALERT

Onelink

SAFE & SOUND

Build with Safe & Sound

Smoke & Carbon Monoxide Alarm

Premium Home Speaker

Embedded Alexa

Add smart smoke & co protection to your home.

Intelligent Smoke & CO Protection

Notifies you if something is not right in your home (on your phone).

Easy, Breezy Installation

Requires AC power. Interconnects with most existing hardwire alarms without re-wiring with our easy-adaptor plug.

Customizable Night Light

Select the color tone and brightness of your device's nightlight. Lights your way at night time.

Your ceiling works as an acoustic backdrop for a great sound experience.

Leverages your Home's Hardware

Optimal ceiling placement fills the room with immersive, crisp omni-directional audio.

Audio & Entertainment

Superior sound clarity and quality with optimal acoustic backdrop.

Your Music

Play your favorite songs from Spotify, Pandora, Amazon Music or play from your music library via Bluetooth.

You can talk to Amazon Alexa on your Safe & Sound.

Built-in Alexa Voice Services

Full Alexa functionality. No additional hardware required for usage.

Just Ask

Ask to play music, hear the news, check weather, control smart home devices, and more.

You're in Control

Use hands-free commands or turn privacy mode on through your app.

COMPATIBILITY

Works with
Apple HomeKit
